

Swanton Village Electric Facility Vote Tuesday, May 6th, 7 am-7pm

A Strong Future for Swanton Village Electric

Swanton Village Electric is proudly 100% renewable and has not raised rates since 2016. With some of the lowest electricity rates in the state, among the lowest 1%—we have been able to maintain affordability while providing reliable, sustainable energy.

The proposed new facility will ensure Swanton Electric meets the community's needs for the next 50 years. This will also allow Swanton Village Public Works and the Swanton Village Police Department to spread out and expand at the current facility.

Bond Impact on Rates \$7,470,815 Bond

ELECTRIC
DEPARTMENT!**

Your Voice Matters!

Every vote counts! Your support is essential to move this project forward and ensure continued affordability and reliability for Swanton. For more information, visit our website or follow us on social media or call the Village Office. **Thank you for supporting Swanton Village Electric!**

Why This Matters

- Meets Swanton Electric's 50-year operational needs
- Only the Electric Department and Administrative staff will be moving into the new building
- Only Electric Department ratepayers will be paying for the building through their electric rates
- The new facility will NOT impact your property taxes
- Meets the expected space needs of Swanton Electric's equipment, administration and line technicians for the next 50 years
- Cost effective: Just 35 to 57 cents daily, the equivalent of less than a cup of coffee
- Bond request reduced by 10.25%, a reduction of \$852,886 for a new bond request of \$7,470,815
